## TRAVEL NOTES

## The Perfect Choice to Unite Completely with the Beauty of Ubud

**Komaneka at Bisma, the complement to the previous properties – Komaneka Resort and Komaneka Tanggayuda – remains the perfect place to stay for those who want to merge completely with the beauty of Ubud!**

All the reasons that make you fall in love with Ubud are perfectly accommodated when you stay at Komaneka at Bisma. Tucked away in the midst of green rice fields, it's an icon and a source of inspiration to explore every aspect of Bali's beauty – one reason it's in just the right location.

A sense of today's Ubud, blending a modern touch without neglecting traditional values, is clearly felt in the lobby. The avant-garde atmosphere lulls us briefly until we realize that this is just the topmost part facing a panorama full of greenery and exoticism.

This model resort property provides lodging for all kinds of guests, whether honeymooners or families, with 34 spacious suites and 10 elegant villas, each of which has its own 12-meter-long private pool and a terrace facing the view, where you can welcome visitors or simply breathe in the fresh air of Ubud.

In the resort's interior, an Indonesian fine dining restaurant indulges guests by offering both traditional and international delicacies. The resort's many water springs make jogging along the 1.2-mile course beneath a canopy of trees one delightful possibility; you can also stay fit by exercising in the half-Olympic sized swimming pool or working out in the gym.

Recognizing Ubud's importance as a center for the arts, there's also a gallery with paintings and other artworks on display. Opposite the swimming pool, it's comfortable place for guests to relax and satisfy their artistic instincts.

The resort also provides for those who wish to make commitments in the peace of Ubud, by providing a wedding chapel that seats 44, as well as several function rooms for meetings and similar purposes.

The presence of Komaneka at Bisma, which will be launched in late 2008, adds a new option for those who seek a new holiday experience amidst the many wondrous assets of Ubud.

### Important

LAGs (Liquid, Aerosols and Gels)

In accordance with standard aviation security rules, cabin baggage items carried on board in liquid form such as aerosol, gel, perfume, hairspray, deodorant, toothpaste and others are strictly limited. The amount of each item must not exceed 100 milliliters and the total amount of all mentioned items must not be more than 1 liter. Such items must also be safely wrapped in a transparent plastic container/bag.

The rule is effectively applicable since 31st March 2007 on all international routes, to and from any country.
